

Barrel Liners

Aluminum Welding

MK's Teflon liner packages are truly One-Size-Fits-All. These packages will replace the need for individual liner lengths. Included on the back of each is a cutting length chart for true-length cuts regardless of Tip Extender, Cup/Tip Adapter or gun/barrel style.

Always measure the length of liner removed from gun/barrel prior to cutting to length.

Teflon Liner (Green)

Cobra® Gold

931-0135 Five-piece Teflon Liner Package

Teflon Liner (White)

Python®

Python® LX
