Introducing the new

X Series Digital Push-Pull Guns

Giving the user ultimate control at their fingertips!

PRINCE[®] X

PYTHON[®] X

Cobra[®] X

Made EASY!

It's Back!!

300

CobraMig

The new CobraMig 300 now with a detachable Digital Wire Feeder!

Detachable digital wire feeder allows for Rail or Boom mounting applications. Interface extensions of 25', 50' or more provide remote adjustments of the power supply.

Simplified user interface allows quick and easy operations.

Extending the capabilities even further...

MK has developed a NEW series of Digital push-pull guns. The X Series digital guns give the user ultimate control at their fingertips. Remotely change parameters or switch between memory programs directly from the gun. Combining feeder separation length and gun cable length, operations can now be managed directly at the gun, allowing complete control 100 feet or more from the power supply.

Plug & play connection now available!

Detachable Wire Feeder
